BTEU 50 years!

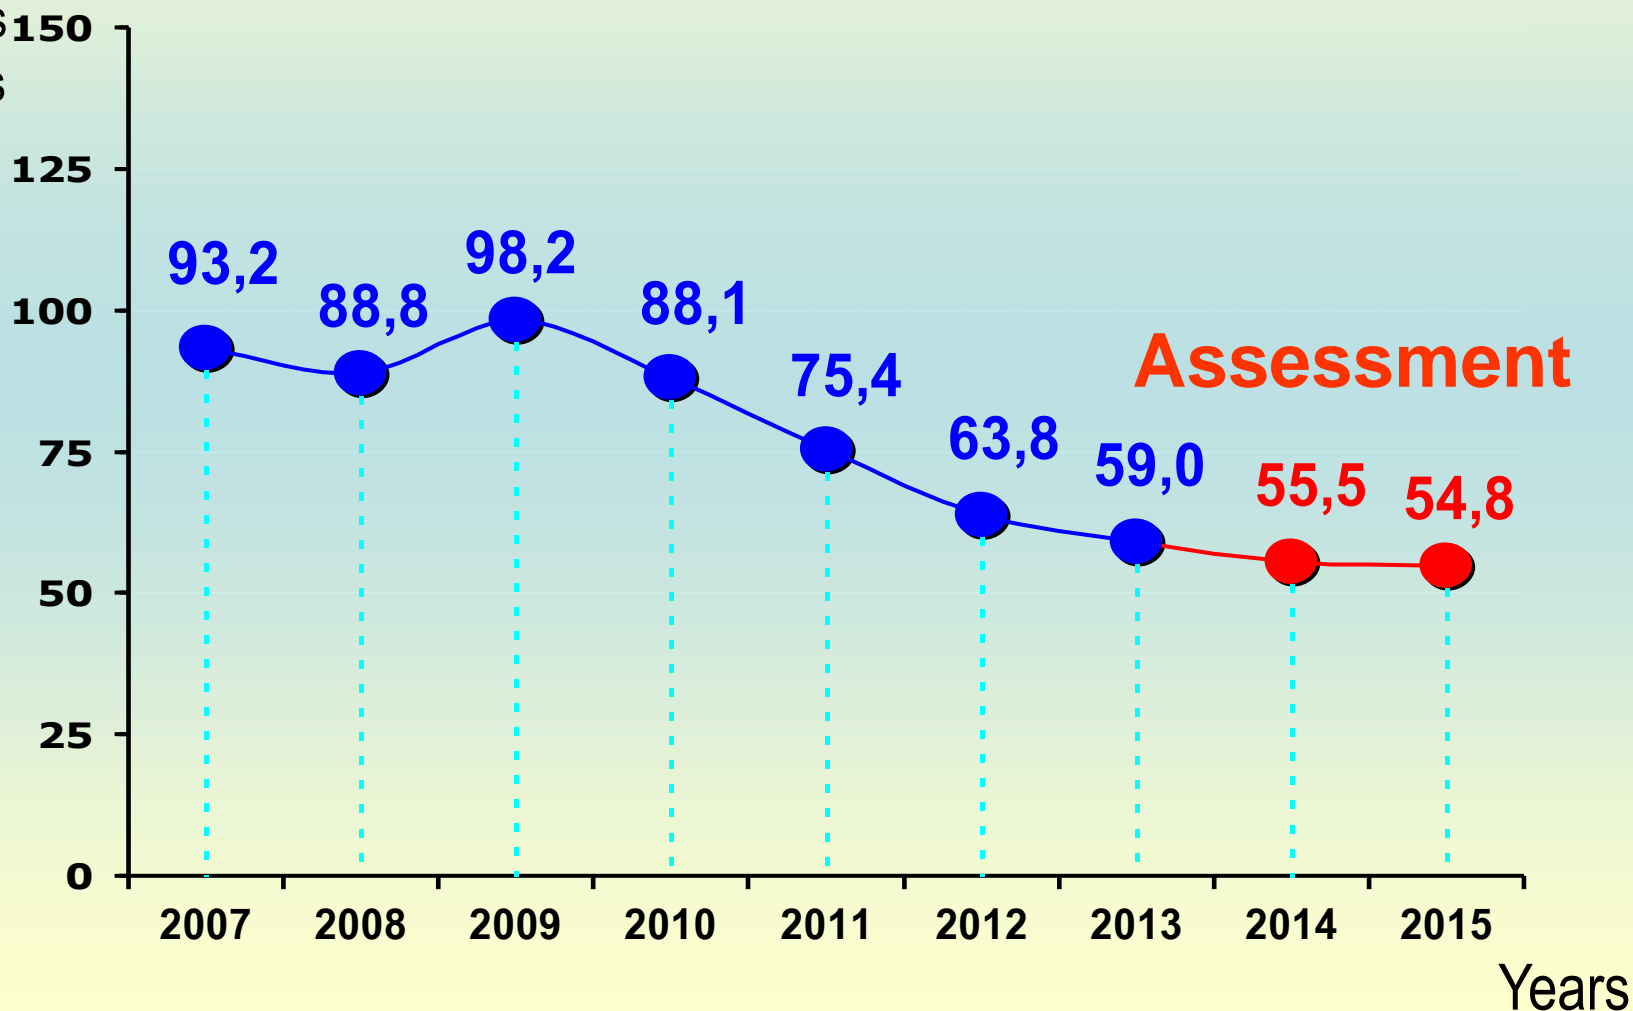

In general about **44 thousand** of professionals are trained for the national economy of the country, including about **13 thousand** of professionals trained for the system of consumer cooperatives.

The average annual number of students at the University over the past five years was **9 thousand** of students.

Number of graduates of secondary general education schools in Belarus in 2007-2015 years, thousands of students

Thousands
of students

Objectives of the University, in completing of which the young scientists should take an active part:

- 1) Enlargement and renovation of the spectrum of specialties and specializations, corresponding to the changing requirements of labor market, on educational programmes at the first level of education.**

Over past 6 years there were introduced 4 new specialties: «Information resources management», «Logistics», «Analysis and Audit», «Merchandising and Trade Entrepreneurship».

- 2) Development of practice-oriented master's degree course.**

In 2013 at the University there was introduced training on 12 specialties of educational programmes at the second level of education with enhanced training.

Objectives of the University, in completing of which the young scientists should take an active part:

3) Development of extra-mural form of education.

4) Development of distance learning education.

At the beginning of 2014 there was created a Department of distance technologies and innovations .

5) Development of export of educational services.

6) Upgrading of material and technical basis of the University.

100 % of student of full-time course, that were in need of dormitories, are provided with a place in the dormitory.

Objectives of the University, in completing of which the young scientists should take an active part:

7) Upgrading of the University according to the directions:

- introduction of innovative technologies of the educational process, including development of electronic educational and methodical complexes
- modernization of scientific-research and innovative activities
- improvement of the infrastructure, working environment and energy networks
- modernization of computer, multimedia and office equipment
- development of university networks and corporative portal of the University
- modernization of library and information supply and editorial-printing activity

In accordance to the objectives set, the role of young scientists consists of:

- ☑ Implementation of effective monitoring and labor market of educational services with the purpose of identifying innovative specialties (specializations) on educational programs
- ☑ Arrangement of qualitative scientific and methodical supply, development of innovative electronic education and methodical complexes
- ☑ Promotion of BTEU at national and international markets of educational services, including the means of effective use of information technologies, official websites and social networks
- ☑ Investigation of international practices and identification of the newest educational technologies, making proposals on innovative transformation of material and technical resources and their implementation in the educational process
- ☑ Activation of initiatives of young scientists on establishing research teams, ensuring the implementation of scientific and research work

BTEU**

An integrated system of training of specialists at the levels of vocational, secondary and higher education

In 1993 educational institutions of Belkoopsoyuz were the first ones in Belarus to cross over to the integrated system of training specialists, which gave a possibility to shorten training period and to optimize training costs.

Currently 55,4 % of students are trained according to the shortened training period on basis of secondary education.

THERE WERE INTRODUCED 13 BRANCHES OF DEPARTMENTS OF BTEU AT ENTREPRISES AND ORGANIZATIONS

Private Unitary Enterprise «Gomel universal base» – Department of Commerce and Logistics

Gomel regional potrebsoyuz – Department of Merchandise of Foodstuff, Department of Trade Economics

Gomel district consumers society – Department of Merchandise of Non-Foods, Department of Management

Gomel regional association of manufacturers of fruit and vegetable production – Department of Economics in Agro-Industrial Complex

Central statistical office of Gomel region – Department of Service Industry and Statistics

JSC «Comintern» – Department of World and National Economics

State Institution «Board of public services of Gomel region» – Department of Management

Gomel «Regional trade union» – Department of Marketing, Department of Branch Economics

Inspection of the Ministry of Taxes and Assessments of the Republic of Belarus in Gomel region – Department of Finance and Credit

JSC «Gomel fat-processing plant» – Department of Marketing

**According to the Council of Ministers of the
Republic of Belarus № 453 of 04.05.2005
«Belarusian Trade and Economics University of
Consumer Cooperatives» is awarded a
CERTIFICATE OF HONOUR OF THE COUNCIL OF
MINISTERS OF THE REPUBLIC OF BELARUS**

**Every semester of the academic year a scholarship of
the President of the Republic of Belarus is awarded
to 4 students who have attained great strides in
study, scientific-research and creative activities.**

**In general 57 representatives of BTEU were rewarded
from the special funds of the President of the
Republic of Belarus on social support of gifted
students.**

Thank you for attention !
