## LA MANCHE: LEADING AND MANAGING CHANGE IN HIGHER EDUCATION

The La MANCHE project is funded by Tempus IV programme and aims at promoting the modernisation of higher education in Armenia, Belarus, Georgia, Moldova and Ukraine. The project is promoted by efforts to develop leadership skills and to introduce the culture of streamlined change management in academic settings in the context of national and international modernisation processes in higher education. Over a period of three years the project will stimulate sustainable dialogue on higher education reforms among relevant stakeholders in the respective countries. In addition, La MANCHE aims at empowering students to become more actively involved in the decision making processes at the universities.
