Summary

3-rd training in the framework of WP5 of LaMANCHE project took place at NTU “KhPI” on April 22, 2014. The title of the training: “EU’s higher education modernization agenda and the role of educational leadership”.

Modernization of higher education is very important in the current political and social conditions in Ukraine. NTU “KhPI” as one of the regional education leaders with extensive connections with European HEIs faces quite a few challenges in this area. Since Business and Finance faculty is one of the leading University’s unit in the named area it was decided to organize a special training for higher and middle management of the faculty. So the target audience of the training consisted of dean, deputy deans, chairs, deputy chairs and their assistants.

The issues, challenges and opportunities of higher education modernization were discussed. Trainees were actively engaged in the training through participation in discussions and generating of ideas regarding higher education modernization.

The participants of the training were invited personally, so no announcement was made on the web-site. The report includes list of participants, filled out evaluation forms, photos, and summary of the training.
