May 6, 2014 - Public lecture "World and European tendencies in Higher Education" was held in frames of La MANCHE project. The lecture was given by the Head of International Relations Department <u>Valynets Tatsiana.</u>

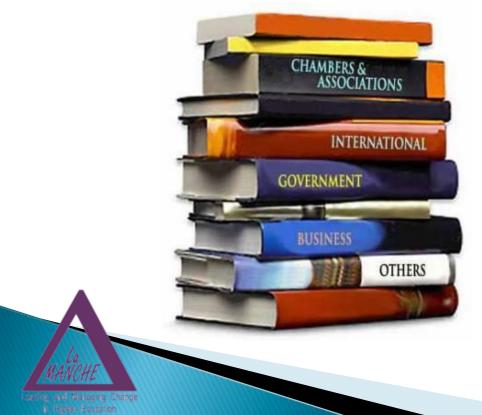

#### Targeted audience of lectures and trainings:

Persons included in the perspective personnel reserve of the University: vice-rectors, heads of departments and (or) their deputies, deans of faculties and (or) their deputies, teaching staff. Total number of the trainees is 35 persons.

Lectures and trainings provided the trainees with a possibility of obtaining knowledge on effective change management and innovative working methods in the field of higher education.

#### Problems in the learning process:

- Schedule (administrative staff members, academic staff members are difficult to put in the schedule at the same time).
- No article "Other expenses" in the budget of the project (multiplication profiles, lists of participants and other expenses were due to the University).
